**OCTOBER 11, 2005 - READING FACES TO
SUCCEED IN BUSINESS AND RELATIONSHIPS**

Naomi Tickle is a world-renowned face reading expert, career coach and author of "You Can Read A Face Like A Book". She is the founding president of Face Language International and has established training centers in the United States and England. Naomi was first introduced to Physiognomy, or Face Reading, in 1981. Amazed by the accuracy of this technique, she felt this was an opportunity to help others unravel their lives. Her book is used as a tool for sales, communications, understanding children, relationships, customer service, team building, career guidance and personal development.

Naomi has appeared on CNN, NBC, Good Morning America, BBC and numerous radio shows world-wide. She has been featured in major newspapers and magazines in England and the United States. Articles have appeared in The Sunday Times, Addendum Law Journal, and the Los Angeles Times among others.

Please join us on October 11 for the topic of "Personality." Listen to a discussion about the relationship between physical features and personality. Hear examples of traits: thinking style, tolerance and level of confidence; and how this helps us to understand and communicate better with others. ■

Luncheon Sponsor - Saint Agnes

Ranked among top hospitals in nation for Women's Health

Cardiovascular disease (CVD), which includes coronary heart disease and stroke, claims the lives of more than 500,000 women each year in the United States. That's nearly 40 percent of all female deaths – more than all forms of cancer combined.

But there's good news for Valley women. Saint Agnes Medical Center is a recipient of the 2005 HealthGrades® Women's Health Excellence Award, according to information released in Women's Health Outcomes in US Hospitals: A HealthGrades Study. The study focuses on the quality of and variation in outcomes treatment for cardiovascular disease in women over a three-year period across US hospitals in 17 states. The HealthGrades designation ranks Saint Agnes among the Top 5 percent of hospitals in the United States and gives it a Five-Star rating in Women's Health, which includes: open heart surgery, angioplasty, treatment of heart attack, treatment of heart failure, treatment of stroke and maternity care.

Saint Agnes is proud of this recognition. But we're even more excited about what it means for Valley women. When you choose Saint Agnes you can be confident that your care is being delivered by one of the best hospitals in the nation for Women's Health.

For more information about women's health services at Saint Agnes, call (559) 450-2000. ■

Directory 2006

This is the last reminder to renew your ad or place your ad for the 2006 Fresno Women's Network Directory. This is a very special directory and vital for networking within this community. Where else can you be included in a book with such dynamic, professional businesses committed to Networking. For as low as \$60, you will not only receive a business card ad in the directory, but you will be included in the Professional Reference section of the Network website. With a larger ad, you will get a Free booth at Net at Noon next year, and have a link to your business from the Network web site. This is a great advertising opportunity! Consider becoming a sponsor yourself by purchasing a half page or larger ad in the 2006 Directory to insure your business is included next year. Contact the Network office at (559) 450-2102 or visit the website for more information. www.fresnowomensnetwork.org ■
